Reference letter

TOO «Kazakhstan Caspian Offshore Industries» would like to recommend «Marine Support Services» as highly qualified Contractor for Construction and maintenance activities.

“Marine Support Services” was awarded several infrastructure development Projects on our Base “Temir At”. Thanks to their contribution KCOI has developed significantly all key amenities and in time increased capacities for big projects like RIE and EPC-4.

There were high weather demands with high humidity and required corrosion resistance and operational requirements for Explosion Proof standards for Project of HVAC Installation and Commissioning for new Warehouses (EPC including supply).

With efforts of Marine Support Services LLP sewage system network has been increased and was developed by new Sewage Pump Station (around 2 500 m of pipelines of various diameters were laid down with installation of numerous pits).

Brand new containerized offices were individually tailored and assembled in Marine Support Services workshops for KCOI Offshore Projects and were successfully commissioned on barge in challenging short timeframe (30 desk stations & one meeting room).

We would like to indicate deep adherence of “Marine Support Services” to highest safety standards and high level of quality control on their Projects.

We do recommend “Marine Support Services” as reliable Construction Contractor.

Bauyrzhan Talasbayev

Yard Manager
